Nevada City Nugget

VOLUME III, NUMBER 16 THE GOLD CENTER NEVADA CITY, NEVADA COUNTY, CALIFORNIA; THE COUNTY SEAT PAPER MARCH 4, 1929

TWO SHIFTS NOW BEING USED AT GERMAN BAR

Work is proceeding steadily at the German Bar mine property at Snow Point which is being developed by the Sunnyside Consolidated interests. Consulting Engineer Thomas E. Stephens came in from the property Saturday on his way to the city on business connected with company affairs and reported things as looking in nice shape.

Two shifts will now be used in both tunnels Nos. 2 and 3 and push ahead the work of opening up the mine. Both drifts are being run on the vein which carries values of milling ore. The progress to date in No. 3 tunnel has been 73 feet since drilling was started with the jackhamer and 38 feet in No. 2. Average progress in No. 2 has been 14 inches per shift and 3 5-8 feet in No. 3. With the txtra shift working will double this footage readily.

The assay plant has been completed and a competent assayer is handling samples from all three tunnels so that the milling ore left between the old stopes where enrichments were found in the early day development of the property can be diagrammed and mapped out ready for the mill installation in the late spring or early summer of this year.

The German Bar has the makings of a large producer when its workings are fully opened up.

JEFFRIES CASE IN LOCAL COURT IS RECALLED

RENO, NEVADA, March 4, (Exclusive Nugget Dispatch)—In 1910 when the firm of Stout & Miller sued James J. Jeffries, then heavyweight boxing champion of the world, for $5000 in an effort to collect an alleged gambling debt, Attorney Norman J. Barry reprsented that firm when the case was called in Nevada City. Jeffriea wss then in training in Reno for his fight with Jack Johnson, and could not leave his training quarters to attend his trial. Jeffries sought a continuance but this was denied by the court and Jeffries was compelled to compromise the case for a substantian sum.

Numerous other legal incidents have also been recalled by the old timers following the election of Mr. Barry of Rone to head the state's lgal organization for 1929, when the board of governors of the State Bar of Nevada recently convened.

Back of 37 years before the courts of northesastern California and western Nevada, "Judge" Barry has figured in the early pioneer life, driving an ox team from his native state of Missouri, to settle in the western frontier and follow his chosen calling, important cases which ranged from cattle rustling to divorce proceedings.

He was defnse attorney in California's famous "mule" case wherein it was held that by the supreme court of California that where hay hands staged a wild west show on the lands of their employer on Sunday and one of them was injured riding his employer's animal, he suffred such injury at his own risk and could not hold employer liable. It was soon after this case that he was chosen attorney for the plaintiff in the noted divorc case of Nat Goodwin vs Maxine Goodwin (Maxine Elliott.)

LINCOLN GOLFERS PROVE VICTORS OVER LOCALS

The clay city golfers took the local divot producers into camp by a two to one margin yesterday on the Lincoln course. W. E. Wright scored a 92 for the 18 holes to lead the local scoring.

NEVADA LODGE, F. & A. M.

Rehearsal for the third degree on Friday night at Masonic Temple at 7:30. Officers please take notice.

John W. Darke, W. M.
J. F. Stenger, Secy.

TWIN SISTER MINE HAS HOPES ELECTRIC POWER

The short water supply and the freezing weather has hampered winter operations at the Twin Sister mine. Fair progress has been made in the big No. 3 tunnel however, and it is now in 750 feet with approximately 300 feet to go to get under the rich ore shoots encountered in the upper levels. With an ample power supply provided rapid progress will be made.

Thawing weather or rains will insure plenty of water to operate the Pelton plant until June at which time it is hoped that an adequate power supply will be arranged. Arrangements are now being undertaken to secure electric power. President R. O. Foster, who was at the property the past few days spotted out a site for a transmission line from the German Bar property which is to be connected with the Alleghany line at an early date. The Alleghany line is the logical solution of the power problem for the entire east belt extending down to the Gaston property and it is to be hoped that the power company will take steps this spring to hook up the properties and make possible the opening up of the mines in that section on a large scale.

The rock in the face of the No. 3 tunnel has improved and shows much mineral. Every stringer encountered shows uslphurets various kinds and which are highly mineralized. President Foster expressed himself as highly pleased with prospects at the property.

TRADE IN MINING SHARES IS GROWING

The stupendous mining share market in New York and Boston and on the different western mining exchanges is a part of the growing boom in the mining industry. California, Arizona, Nevada, Utah and Colorado camps are already experiencing a marked revival over operations in 1928. Reports raching The Nugget from all over the west, from Mexico, British Columbia and Alaska tell the same story. Mining is booming and a great wave of prosperity is sweeping the industry.

Records for sales of mining shares are being broken on the New York exchange. On Friday, February 8, transactions in American Smelting and Refining company on the New York board totaled approximately $2,510,000; Anaconda Copper traded in 138,000 shares with an aggregate value of approximately $17,489,000; Kennecott Copper sales resulted in a turnover of 38,900 shares representing a total value of $5,030,000; Nevada Consolidated Copper showed transactions of approximately $1,900,000 and Cerro de Pasco $1,540,000. This is a record for one day only and this big mining market has been boiling for many weeks.

The west is alive to the wonderful expansion and resultant demand for metals. Electric power lines are furnishing needed power where before is was necessary to haul coal u steep mountains. The auto truck is another economical factor in mine develoment. Selective flotation is adding millions to profits from the mines. Greater demand for metals is causing higher quotations and this means increased prrofits for teh producers. Promoters of new mining companies are meeting with greater success in their financing because there are thousands of men with money for investment who have sensed the new opportunities in mine development. The year 1929 promises to be a banner 12 months in the mining industry.

R. E. Miesse, mining man associated with Paine Bros. in mining, returned Friday from Los Angeles wher his mother was operated on for appendicitis and was making a good recovery.

Mr. and Mrs. R. M. Ewing spent three days visiting with Peter Bachels and son and daughter at Goodyear Bar.

Visitors at the E. W. Smith home are, Miss Edna Smith, Mr. and Mrs. Charles Hall of Folsom, andMartin Randall of Martinez.. Miss Smith will remain here for a visit of some time.

OPTION IS TAKEN GARESIO MINE WEST OF TOWN

The Garesio mine west of town on the Downieville highway is reported bonded to capitalists who have taken a thirty day option on the property which is on the McDonald vein system. By the terms of the option work must be begun within the option period and it is reported that development is being undertaken today.

The property is a former producer and is in a very promising territory which will be coming to the front in the next few years as the mining revival in this section gets fully under way. W. O. Gruenewald is opening up a prospect on the same vein system.

The terrritory to the west of Nevada City for a few miles contains some of the most promising quartz prospects to be found in the county and is practically virgin ground. It is a continuation of the Champion and the Grass Valley vein systems which have roduced so many millions.

JIM STEWART WRITES OF EARLY PLACER MINING DAYS

(By James D. Stewart)

Continued from last week

The proponents of hydraulic mining were practically all engineers, who dealt in facts and figures based on life-long experience or careful study. The opponents, with one exception, were politicians. All of the proponents were there on their own, paying their own way. As far as the writer knows, the opponents were all directly paid or else holding down public jobs that paid them indirectly.

The hydraulic miners, Roy H. Elliott, Pierre Bouery, the writer and others, knew the cost of mining from a practical standpoint as well as from vantage of trained engineering. None of them for a moment would presume to discuss the costs and methods of farming from an authorative standpoint. No such modesty held back the farmer or his pseudo politician, lawyer or townsman spokesman.

They told how hydraulic mining was conducted, how it ought to be, what the values were and computed the profits. And it's safe to say none of them knew the nozzle of a hydraulic giant from the pimple on a hen's nose.

One table-pounder worked himself into a frenzy telling how there were 800,000,000 cubic yards of gravel in the North Bloomfield mine alone that was to come down in the form of an avalanche behind the Bullards Bar Dam, that had a caacity of but 50,000,000 cubic yards.

The only discrepancies here are that the North Bloomfield mine drains into the South Yuba river and the Bullards Bar Dam is on the North Yuba river and has a capacity of 80,000,000 cubic yards. This was even distributed in pamphlet form.

Later, this same speaker gave a series of quotations from different engineering reports and left out from one to six words, entirely changing the meaning, and read a congressman's letter as an engineer's report. This was so raw, that the chairman appointed a committee to check his paper and report back at a subsequent meeting. This was done and the corrections made a matter of record.

One of Otto Von Geldern's papers was published in pamphlet form by the farmers of Sutter county and given wide distribution with the caption:

Otto Von Geldern, Consulting Engineer to The Commonwealth Club of California.

The Commonwealth Club has no consulting engineer.

Another speaker tried to place angels wings on the watchman (spies) sent out by the valley organizations in days gone bye, but they might as well have tried to make wings of wax stick to the devil for around the table were men who knew how these frugal spies at $3.00 per day, saved funds with which to purchase flour mills, ranches, business blocks.

Some of their speakers laid great stress on the ocean going steamers that navigated the Sacramento river as far as Red Bluff. However, no information was forthcoming as to how much water these boats drew.

In 1924, A. E. Anderson had, however, stated to Warren H. McBride that there was a greater depth of water in the Sacramento river below Sacramento than at any time in the 50's.

One speaker stoutly maintained that the farming interests were entitled to government aid without limit but that the mining fraternity were conducting a private business and were not ntitled to any aid. In fact, these meetings brought home to the writer the most aggravated case of single minded selfishness that could possibly be imagined. The Sutter county farmer stood ready to claim anything and everything that might benefit him without rime, favor or reason and concede nothing to his opponent.

Their speakers stood up and argued till they were purple over the right to take the hydraulic miner to their courts for trial instead of before some impartial unbiased tribunal.

They were aghast when A. L. Wisker showed that the farmer should have nothing to fear from the miner and that they could and should go hand in hand.

Time after time, before the Commonwealth Club meetings and during them, the leader of the Sutter county farmers was asked: "If we can satisfy you or your engineers that hydraulic mining can be conducted so you are absolutely safeguarded from injury will you cease to object?" And the answer was always "No", and not a courteous "no", but like the snarl of a wolfhound that has had its tail stepped on.

What can one do or say in the face of such pig-headed selfishness? There's but one thing—give them battle and clean them up, and that's the job ahead of us.

To be continued

TRIPLE POCKET MINE SIERRA COUNTY SOLD

The sale of the Triple Pocket quartz mine in Slug Canyon, Sierra county, by Henry Rosenfeld to C. J. York and Allison Brown is reported Mr. York was the first locator of the property, selling it to the Rosenfeld interests and now buying it back again. The Rosenfelds operated it for some years until the water got the best of them with the facilities they had at hand and they closed it down.

Mrs. Mary Rossen is home from a visit of several weeks with relatives in Oakland.

The Corey Bros. of Grouse creek during the winter equipped their placer mine and are now operating on an extensive scale.

James Bradbury of Alleghany spent a few days here visiting.

NEW COMPANIES SEEKING MINES IN THIS SECTION

At least three large mining companies are preparing to enter the local field this spring as soon as suitable properties can be located, is the good news The Nugget has to offer its readers this week.

This paper has been commissioned by two of them to locate desirable holdings and listings on several have already been submitted to them and will shortly be inspected.

Owners having properties available for development will do well to keep in touch with this office provided their purchase price is reasonable and the terms attractive.

A big mining revival is coming on in this county this spring.

The freezing weather of the past month has greatly curtailed operations at the Sierra Buttes mine at Sierra City, owned by the Hayes brothers of San Jose. The long flume line around the Buttes is frozen up.

MINING LOCATIONS ARE PLACED COUNTY RECORD

The following mining claims have been filed for record the past week:

Double A No. 3 Lode quartz by A. A. Codd in Nevada Mining District.

Double A No. 4 Lode quartz by A. A. Codd in Nevada Mining District.

Double A No. 5 Lode quartz by A. A. Codd in Nevada Mining District.

Double A No. 6 Lode quartz by A. A. Codd in Nevada Mining District.

Double A No. 7 Lode quartz by A. A. Codd in Nevada Mining District.

The Water Lad quartz by Henry Wilson and C. C. Bennett in Round Mountain Mining District.

The Leona Lode quartz by Leona Kenny in Grass Valley Mining District.

Columbia Extension Lode quartz by Joseph P. Kenny in Grass Valley Mining District.

Columbia Lode quartz by Cooley Butler in Grass Valley Mining District.

Double A No. 1 Lode quartz by A. A. Codd in Nevada Mining District.

Double A No. 2 Lode quartz by A. A. Codd in Nevada Mining District.

LOWER TUNNEL BEING RUN AT 1000 AND 1

A new tunnel to cut under the gravel channel is being run in the Thousand and One mine near Sierra City, being developed by Seattle interests. A crew of six men is engaged in running the tunnel in two shifts and are making good progress Arthur Pride is in charge of operations.

BEN PRESTON PASSES

Finis was writ Saturday afternoon to the life on earth of Ben H. Preston, for the past quarter of a century a resident of this community. The end came peacefully with the devoted wife in attendance. Fueral services will be held this afternoon at 1:30 from the Holmes Funeral Home

Mr. Preston was born near Lincoln Septmber 9, 1864 and for some years was engaged in the newspaper business in Sacramento. About twenty five years ago he came to this community and took up mining. About nine years ago he opened up the newsstand which he had since conducted.

Surviving are the wife and one brother Harry of Oakland.

Remains will be taken to Sacramento for cremation and interment in the family plot.

MARKET QUOTATIONS ON SUNNYSIDE PUBLISHED

The "New York Herald-Tribune" now publishes the daily quotations on the Sunnyside Consolidated under the Los Angeles Curb excaange head, giving total sales, the high and low and the last sale. This facility should be appreciated by the western people who have occasion to be in the east so as to keep in touch with the market developments.

Elton Davies, son of Frank Davies had an abscess opened and dressed by Dr. R. F. Werner last Wednesday.

Mr. and Mrs. James Hutchison had a sguests, Mr. and Mrs. D. R. Hutchison and little son of San Francisco.

Miss Mary Schmidt returned to Mills College Tuesday after a short visit here with her parents, Mr. and Mrs. E. W. Schmidt.

Sargent Chapman of Oakland, and Muller Chaman of Sacramento spent the week end here with their parents, Dr. and Mrs. C. W. Chapman.

Mrs. Mamie Parsons was a visitor in Woodland Saturday. She has made a good recovery from a recent serious operation.

Mr. and Mrs. E. T. R. Powell have had as visitors, Mrs. Henry Schaffer of Davis and Edwin Powell of San Francisco.

Mr. and Mrs. J. S. King spent the winter with relatives in Oakland.

CEMENT GRAVEL TO BE HANDLED NEOCENE MILL

Favorable developments are still proceeding at the property of the Neocene Gold Incorporated where the sensational gravel strike was made a few weeks ago as announced in these columns. It is possible that the contemplated mill construction to handle the cemented gravel will be within the next 30 days according to President C. H. Manker.

In the north cross cut large quartz gravel is beings encountered which indicates the nearness of ledge matter which may have an important bearing on the future development of the property. The main crosscut is still in the blue gravel which is getting coarser grained. This crosscut is five feet above the bedrock which is still pitching deeply. Good values are found in the gravel being taken out from the drift.

A test mill run has been made on samples of the gravel and it has been found that the larger values run in the concentrates than in the free gold. The company will use amalgamation in the sluices and runs concentrating tables in connection with the mill.

A number of people are confusing this property with the Neocene property at Round Mountain. This property is on the north side of Cement Hill just west of Sugar Loaf and the large deposits of auriferous gravel being encountered apparently a continuation of the famous old Manzanita Channel which produced so heavily in farmer years to the east. The water problem caused previous owners to pass up its operation but the water situation is not causing trouble at present, due to its efficient handling.

MSR ELIZA ROBERTS CROSSES INTO BEYOND

Mrs. Eliza Roberts, for over a century a resident of this city passed away early last week following a lingering illness. She had been making her home with her daughter, Mrs. R. J. Tremaine. Interment was made Friday.

Deceased was the relict of the late Stephen Roberts, formerly a merchant here. She was 8? years of age at the time of her passing and was widly loved for her many virtues. Surviving are one daughter, Mrs. Esther Tremaine; three sons, James and John of San Francisco, and Stephen of this city.

The funeral services were largely attended. Beautiful music was rendered by John Harvey with Mrs. Harry at the piano. The pall bearers were Charles Nimmo, William Jeffry, William Tamblin, John Pettingill, Al Seaman and William G. Richards. The funeral arrangements were in charge of W. R. Jefford and Son.

MRS. CARL KITTS HAS PASSED AWAY

Mrs. Carl Kitts, daughter of Mr. and Mrs. William F. Sharpe passed away early last week quite suddenly. Funral services were held Thursday afternoon from the Holmes Funeral Home. She was a native of this city and was a member of the 1926 graduating class of the high school. She was wed to Carl Kitts July 1st of last year and the young couple had resided in Grass Valley and Allghany. She had been sick but a week and an emergency operation at The Nevada City Sanitaruim disclosed the fact that she was suffering from an exploded appendix. Surviving are the husband, the parents, and three brothers, Charles, Robert and Wil-

Bonuwert and Mow of Grass Vallly hurt Sunday aeroplane accident.

BORN—To Mr. and Mrs. Thomas Haddy, Friday, February 22, 1929, in Nevada City, a son, Alfred Leroy.

W. L. Mobley spent a few days in Yreka last week.

1927 MINERAL FIGURES BY THE GOVERNMENT

The report of the Unitad States Department of Commerce covering gold, silver, copper, lead and zinc mining in California and Oregon during 1917 as prepared by James M. Hill, Pacific Coast represntative of the Department, was released to the press Saturday and contains many matters of interest to Nevada county mining.

Nevada county continues second in rank in gold production, being second only to Yuba county which has the gold dredgers at Hammonton with a production of $3,468,-201. Nevada county's production was 100,585.6 fine ounces of lode gold with a value of $2,076,289, and 2,317.47 fine ounces of placer gold valued at $47,906, and a total value of production of $2,127,-195. Amador county is in third place with $1,922,714, Sacramento with dredging at Natomas and Folsom showed in fourth with $1,211,-278. Sierra county is in fifth place with $678,873.

Lode mines in the local district are crdited with 95,852.9 ounces during 1927 and 47,348 ounces of silver from1 191,462 tons of ore, largly handled by the Empire, North Star and Idaho Maryland mines. Production was reported from the Twin Sister, the Mizpah at North Bloomfield, Eagle Bird, and Gaston at Washington, Gold Fleece and Slide placers at French Corral, Stockdale and Porter hydraulic property on Deer Creek, Liberty Hill, Graham Brothers, Loyal and Tom and Jerry sluice properties. War Brothers property near Washington showed good production and the Amundsen, Browns Hill and Quaker Hill in the You Bet section showed good returns.

The government report for 1928 will show Nevada county to be well in the lead with increased gold production over any of the other counties depending on lode production and it would not be surprising to see our famous county jump into the lead over Yuba county in the next few years. The year 1929 is going to be a banner one in gold production in this county. The earnest cooperation of the power companies serving this and the Alleghany district in extending their power lines will do a great deal toward putting mining on its feet again in the eastern portion of the district.

SPRING IS HERE!

Well! well! well! Two new javelins, a new vaulting pole, and a brand new discus! The student body is sitting back in breathless anxiety awaiting further evidence as many believe they are suffering from hallucinations. It is not so.

Seeming evidences of weakening minds on the part of the higher ups merely mean that spring is here, and we must start in trotting around the track, crow hopping over hurdles,throwing iron balls on peoples toes, and all the other things that denote school activity in track.

Have we any good material? Well you ought to see 'Cac" Coughlan doing six feet in the high jump. "Speed" making twelve in the vaulting, and that paragon of swift movment—"Males" doing the hundred in ten seconds flat.

EDUCATIONAL MEETING IS SET FOR APRIL 24

The tenth annual observance of public schools week in California will be held this year at Nevada City, on Wednesday April 24th according to the announcement made in this city today by John W. Darke, Worshipful Master of Nevada City Lodge of Masons. Although originally instituted as a Masonic function and celebrated only in lodge rooms the development of interest in the activities of the week has become so marked that it has assumed the proportions of a state wide community event.

Last year there were over 500 meetings held throughout the state in school auditoriums and public halls participated in by parent teacher associations, city, county and state officials and civic, commercial and fraternal organizations.

In the proclamation issued by Grand Master Hutoff it says:

"Every child should share in the fullness and richness of the opportunity for success which is made possible through education.

"It becomes our duty, therefore as citizens to do all in our power to suport such a worthy cause as Public Schools week. It should particularly be remembered that Public Schools Week is a community affair in which we seek the active cooperation of all local civic organizations and the participation of all the people in the community. The celebration this year will be hld during the week beginning April 22nd."

EDITORIAL

It is time to begin thinking about financing the "Quill". Last year the class brought out an excellent book, and came out on top financially. We of this year hope we can do the same. To do this, however, we must earn some money with outside activities. The Girls' Association has already made twenty dollars for the "Quill" by means of a luncheon given for the school. But twenty dollars is not enough. We are planning to give a food sale this spring. We hope the townspeople will support us as they have in the past. Last year we made about eighty dollars at one food sale. If we can make as much this year the money will certainly help. Last year the school gave a carnival which was very successful. This year we are wavering between another carnival and, a school play. We should be very glad if the townspeople would tell the students which they would prefer. In any case we are sure the residents of Nevada City will help us make a success of the entertainment. In return for the support which the townspeople have always given us, and which we are sure they will continue to accord us, we are trying our very best to put out the best book ever.

FORMER GRADUATE DIES

The death of Mrs. Carl Kitts, formerly Bernice Sharp, came as a great shock to the school. Mrs. Kitts was a graduate with the class of '26. The members of the present senior class were freshmen when Bernice Sharp was a senior, and many of the other students knew her outside of school. The student body of the Nevada City High School regrets very much the death of Mrs. Kitts and extends its sympathy to her family.

VISITING TEACHER

One day last week was given to Miss Leschinsky to visit some outside school. Miss Leschinsky selected the University High School in Oakland, because this is one of the most efficient and modern in the state.

Her chief motive in the visit was to observe new methods in the mathematics and physical education departments in the Oakland high school, and to apply them if possible to her work here.

GRADE RESULTS

The report cards were given out Monday, February 25, the day which marked the end of our fifth five week period.

There were six students on the honor roll; seniors: Alberta Baker Nancy Jones and Mary Jones; juniors: Nadine Sutton; sophomore: Curtis Roberts; and freshman: Barbara McMinn.

The honor roll is not so large as it has been. This fact may be due to the sring weather, which we are enjoying.

QUILL PICTURES

The class and group pictures for the "Quill" were taken Wednesday February 20, by Mr. Tyson of Grass Valley. They were taken in a green field with a background of green. Most of the pictures to be engraved for the "Quill" have been sent away, and we hope to have a reduction on them by having them in by March 1.

The story contest for the "Quill" has been organized by Nancy Jones. Several students have written short stories. The best ones will be selected for the annual.

JOKES

Mr. Pedersen asked in a test: "What are the proerties of light?"

Malcolm: "It makes plants bloom and makes chickens lay".

Miss Hoffman (discussing poem) "The west wind can go anywhere."

Donald: "I'll bet it can't go north".

HONOR SOCIETY MEETING

The members of the honor society met in Miss Taylor's room Wednesday after school. They talked over the financing of their party which was held on Thursday evening, February 21, at which the Grass Valley honor society was present. Plans were made to have a dinner party for the society. Mary Jones and Alberta Baker were appointed to make further arrangements. They also talked about giving some kind of entertainment before the student body. As all business was not thoroughly discussed they decided to meet again Thursday.

SOPHOMORE GATHERING

The sophomores assembled in their adviser's room Monday noon, February 25, for the purpose of discussing their party. A report was made by Cecelia Genasci, chairman of the general committee. The members have appointed the following committees: decoration: Deynes Foley, chairman; Evelyn Granholm; Ruth Smith, Tom Hogan, and Joe Sbaffi; refreshment: Bernice Coughlan, chairman; Elizabeth Thomas, Caswell Fisher, and Adele Deshwanden; music committee: Vernon Sandow, and Curtis Roberts. A definite date was not decided upon as basketball games, and other events are taking all the coming Fridays, but the sophomores promise that their party will be sometime in the near future and will be a "wow".

PHYSICAL EDUCATION

The girls' physical education class under the coaching of Miss Leschinsky has been playing hockey during the class period. The girls and also the teacher have enjoyed this game very much.

There has been a little discussion of having track but the plans have not yet been definitely decided upon. It is hoped by all the girls that this idea will be carried out.

NEVADA CITY LOSES

Nevada City played Lincoln high school in a championship match last Thursday night at Lincoln. Despite the hard fighting quality that our boys displayed, the Lincoln team came out of the struggle on top. The score at the end of the main game was 29-23 in favor of Lincoln The A game score was 36-29, also in favor of Lincoln.

Mr. and Mrs. Charles Dubordieu of Sierraville are visiting their daughter, Mrs. M. Barnum and husband.

Perfect Assurance

When you utilize our seryice, you may be assured of the utmost and the most modern appointments in every particular. We are proud of the service we have rendered this community in years past and we intend to merit your patronage.

JOKES

Teacher: "Joe, who gave you permission to laugh aloud in the school room?"

Joe: "Well, I laughed up my sleeve, but it had a hole in it".

Hippo: (looking at his report) "My marks are so low this month".

Twinny: "Of course, everything is marked down after the holidays".

Miss Leschinsky: "For tomorrow, take problems 24, 25, and 26".

Buddy: "Do you mean work them?"

Miss Leschinsky: "No, Curtis, I was just saying the numbers because I thought they sounded pretty".

Milton: "I asked Pat if I could see her home last night".

Bill: "What did she say?"

Milton: "That she'd bring me a picture of it in the morning".

Miss Leschinsky: "If angle B is 30° and arc AC is twice B, how many degrees are there in arc AC?"

Genevieve: "Fifty".

SISKIYOU COUNTY

The King Solomon mine reports rich strikes of gold. The D. A. Foley Construction Company is building a six mile road with a crew of men.

It is reported that platinum has been struck in the western part of Siskiyou county.

It is reported that one of the biggest strikes of gold ore has been made at the Black Bear. One vein is 6 feet and the other 8 feet in thickness. Major Ross is superintendent of the Black Bear.

EL DORADO COUNTY

The Rising Hope mine may resume operations early in the spring. T. J. Dillon and J. W. Orr of Sacramento have the property under a 5 year bond and lease. S. N. Warren of New York City is the owner. Three men are employed.

MARIPOSA COUNTY

The 10-stamp mill of the Colorado Quartz is running. J. C. Kemp Van Ee is superintendent. The mine machinery is electrically run. They plan to let a contract to run the shaft 100 feet below the resent 200 foot level.

CAMPTONVILLE JOTTINGS

At a meeting held recently, Gravel Range Lodge installed officers for the ensuing Masonic year, Inspector Fred J. Joubert, of this District, installing the new officers. Those holding office for the new year follow: Worshiful Master, Julius E. Pauly; Senior Warden, William O Grant; Junior Warden, William B. Meek; Treasurer, Fred J. Joubert; Secretary, Earl L. Cleveland; Marshal, Frank M. Groves; Senior Deacon, William A. Lang; Junior Deacon, Acton M. Cleveland; Chaplain J. C. Merriam; Senior Steward, G W. Mix; Junior Steward, Fred C. Kendall; Tyler, David Lewis.

The first forest fire of the season was registered Tuesday, when a frie between Oregon Creek and the Cold Spring service station, when a fir which had been burning slightly for a few days became of considerable extent and if allowed to continue would become dangerous. Forest Ranger Frank W. Meggers, with a small crew of men, worked at it Wednesday until it was under control. The dwelling house of A. Brner, superintendent of the Garden Valley Dredger, took fire Wednesday afternoon when a spark lit on the roof, igniting the shakes Mrs. Stewart, the cook, was the only one home at the time, and being unable to do anything, she fired a gun, which shots attracted the men at work on the dredger, who shutting down the machinery rushed to the house, and extinguished the blaze. The shakes being a little damp, and lots of water nearby prevented the probable destruction of the property. A small area of the roof was burned off, and the paint on the inside walls damaged somewhat by water. The loss is not very large, and is covered by Acton M. Cleveland's insurance agency.

Mrs. Henry W. Huckins and Miss Lucille Fogarty of North San Juan were in town Thursday visiting Mrs. Acton M. Cleveland and family.

Supervisor George Campbell of Pike City was in town Thursday.

Lee Bullington is engaged taking down the butcher shop, which was recently purchased by Fred B. Hanson.

The many friends of Mrs. Kate Hope Livingston regret to learn that she has been confined to her home at Berkeley with illness.

Frank Burris was in town Wednesday repairing the telephone line between town and his ranch.

Manager Gooding of the Pacific Telephone and Telegraph Co. was in town Wednesday.

C. H. Clifton of Freman's Crossing passed through town Tuesday from Downieville enroute to his home.

Joseph Halkyard returned Sunday from a short visit to the bay section. His daughter, Bernice, accompanied him.

W. H. Wayman motored to Nevada City Monday.

Mrs. Fren Cook and children returned Sunday to Pike City where she teaches school, after a short visit with relatives at Alameda.

Mrs. Antionette Martignone returned Tuesday from San Francisco where she had been visiting the past month.

Hawley H. Chatfield returned to his home at Pike City to spend the week end. He is working at a mine near Bloomfield.

Mrs. G. B. Cassano and daughter Miss Aurila Cassano, arrived Tuesday from Sacramento, where Mrs Cassano was detained with illness She is much improved and her many friends are glad to see her return home.

David Lewis returned Monday from Downieville where he spent a few days visiting rlatives.

John W. Darke and wife, of Nevada City, Mrs. Belle Douglas of San Francisco, and Mr. and Mrs. Howard Douglas of South Africa were in town Sunday.

Miss Doris Nightengale returned Sunday from Placerville ,where she had been visiting friends.

Miss Margaret Moulton passed through town Monday enroute to Downieville from Nevada City.

Someone stole a quantity of newly cut wood from the property of F S. Labadie on the outskirts of town, evidently someone coming along the highway.

Bruce Nightingale returned Sunday to his home at San Francisco after a short visit to his mother Mrs. W. H. Wayman at Pike City.

Leonard L. Bishop and Esmond J Humphrey motored to Nevada City Monday.

Eugene H. Hays returned Sunday evening from Marysville.

W. S. Godfrey returned Monday from Downieville and went to Pike City where he resides.

Henry Harrison was engaged Monday in hauling some powder into Indian Hill mine.

Philadelphia's first telephone exchange was established in November, 1878. In Uovember, 1928, just 50 years later, there were 370,314 Bell telephones in opration in the city.

When President Coolidge and King Alfonso exchanged gretings by Transatlantic telephone, the Spanish monarch spoke in English.

During the year 1927 there were 777,144 telephones added to the existing systems in the United States.

Direct telephone service was inaugurated this past summer between Czechoslovakia and Hungary.

Telephone service was inaugurated this past summer between Roumania and Bulgaria.

Telephone communication has been established between Santiago, Chile, Buenos Aires, Argentine, and Montevideo, Uruguay. Later the line will be continued to Brazil.

The first automatic central office in the Paris telephone network was opened recently. Eventually all of the telephones in Paris will be converted to the dial system.

BURCH GOLD CONCENTRATOR

In the Battle of Life Reserve Funds Count

In all the games of life, the victories go to those who have something in reserve. In muscular activities, it is the man who has the most stored energy upon which he can draw, that determines who will win. In war the armies with the greatest reserves, usually hold the balance of power. This holds true in matters of business as well. A well fortified reserve is a big aset for any business or for any man.

A savings acocunt is the best method of buliding up a reserve that will prove worth all the sacrifice it may cost. No one can tell when he may need it. The wisest policy is to start saving and build up to the day when the reserve will determine some important turning point in your life.

THE NUGGET INDOOR SPORT COLUMN

GOYNES CLIMB OUT OF CELLAR CHAMPIONSHIP

By taking three games Thursday night from the league leading Celios, the Goynes managed to climb out of the cellar in the Elks bowling tournament and the Scheemers by dropping four points to the fast coming Nickless outfit slipped into the basement. The Kopp and D. Richards aggregations divided the two points and are third and fourth place.

The Goynes seem to have shaken off their lethargy at last and are bowling in good form. The Celios did not show much in their first game s and the Boilermakers romped away with them in easy fashion. It was one of the first nights that the Goynes have had their full team together and it had its effect. Short handed tams do not make good bowling.

The bowling of the past week did not show any outstanding work. There was but one double century rolled and not over three strikes in a row was registered by any one. Tamblyn by keeping up his good work is now securely in second place in the individuals standings. There are now seven bowlers in the 150 class which shows that the tournament work is having good effect in bringing upthe young bowlers into strike and spare makers. Curnow is still lading in the spare department having thrown 84 second balls that did proper execution. Tamblyn comes in second place with 79 while other good spare makers are P. Carr 78, Bigelow with 75, Nickless 75, Fouyer 68, Jackson 65, Breese 65, Fortier 65 ,Penrose 63, and Leiter 61. Strike making seems to be the hard job there being but three over the half century mark. Tamblyn is in second place with 59 and Curnow in third with 55.

There is but three weeks to go to complete the second tournament.

On January 1, 1928, the Dominion of Canada had 1,265,869 telephones.

Harry Preston of Oakland is here visiting with his brother Ben, and wife. The latter is quite ill.

In 1889 the city of Los Angeles had just 1,000 telephones. The 100,000th mark was not reached until 1913. The other day Los Angeles' 350,000th telephone instrument was installed.

There's peace in the household guarded by Castoria. Peaceful sleep for Baby. Uninterrupted rest for Mother. For a few drops of pure Castoria will quiet any fretful infant. Or put the little one back to sleep when there's an upset during the night.

Parents, don't try to do without good old Castoria! It isn't fair to the baby, and it makes things hard for you. You can't give baby medicine meant for grown-ups—or shouldn't! Castoria is the solution. It is always safe. It always does the work. And although it acts as swiftly as an opiate or a narcotic, it contains neither. *Castoria is purely vegetable.* Give it whenever baby's constipation, colic, diarrhea.

No less than five million modern mothers have come to depend on Castoria, for twenty-five million bottles were bought last year! Get yours today; don't wait for some night when it's needed, and the drugstore is closed!

Children cry for CASTORIA

BITS OF HUMOR

There is hope for the man who confesses his own sins, but little time for the man who confesses the sins of others.—Exchange.

The automobile industry is supposed to support 10 per cent of the American people, and the remaining 90 per cent are kept busy jumping out of the way of the product thereof.

Officer—"Don't you see that parking sign?"

Ernie B.—"Yes, I think they are fine don't you?"

Mrs. William Temby is home after a visit of several months, with her daughter at Medford, Oregon.

I stood up on a mountain,
And looked down on a plain.
I saw a lot of green stuff,
And thought it must be grain;
I took another look,
And thought it must be grass,
And bless me!! To my horror
It was the freshmen class.

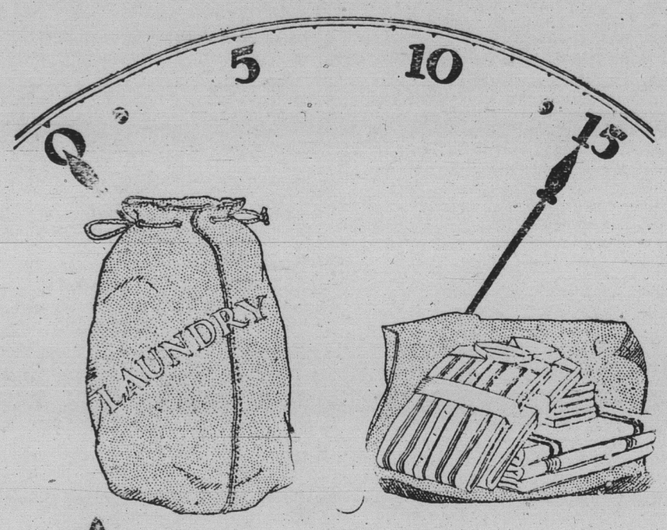
Bert—"I know a girl who plays th piano by ear".

Nancy—"That's nothing. I know an old man who fiddles with his whiskers".

Nadine S.—"I saw a man swallow a sword".

Thelma B.— "That's nothing I saw a man inhale a camel".

Miles D. Coughlin was an official visitor in Auburn during the week.



A Washday *only* 15 *minutes long-*

INSTEAD of being a drudging task all day long, your washday need last only 15 minutes; half of that time spent in gathering the clothes and linens, the other half devoted to putting them away after they have been returned to you fresh, clean, neatly ironed, ready to use.

Let the LAUNDRY *do it!*

NEIGHBORHOOD NEWS

Marysville has boasted as being the great commercial town of the valley section of Northern California, or the "hub city" of the valley, desiring all railroads and highways, or other roads to center or cut through there, and has mentioned great industrial activity Very recently the Yuba Construction Company, one of the largest manufacturing companies in the state, manufacturers of dredgers, has pulled up stakes from Marysville and moved the entire plant to Benecia, where they can ship to all parts of the world without shipping from an inland point. This company employed several hundred men, most of whom probably will move to Benecia to continue with the company. Possibly the hub city needs the new road to tap the Yuba Pass in an effort to take ni some of the slack 'hat the removal of this large firm 'eaves.

Cecil Angove motored to Sacramento Saturday and returned with his sister, Miss Elvida, and she spent the week end here with her mother, Mrs. Bessie Angove.

P. W. Miller of the Golden Rule store, is home after managing the store in Willows for a week.

Twenty years ago there were abou 6,500,000 telephones in the United States. Today there are over 19,000,000.

A modern telephone exchange the first ever installed in the northwestern part of Africa, has been placed in service in the city of Ceuta, which is now connected with the telephone system of Spain and thus with France, England, United States and other countries.

When Food Sours

Lots of folks who think they have "indigestion" have only an acid condition which could be corrected in five or ten minutes. An effective anti-acid like Phillips Milk of Magnesia soon restores digestion to normal.

Phillips does away with all that sour gas right after meals. It prevents the distress so apt to occur two hours after eating. What a pleasant preparation to take! And how good it is for the system! Unlike a burning dose of soda—which is but temporary relief at best—Phillips Milk of Magnesia neutralizes many times its volume in acid.

Next time a hearty meal, or too rich food has brought on the least discomfort, try—

PHILLIPS Milk Of Magnesia

DR. CALDWELL'S THREE RULES

Dr. Caldwell watched the results of constipation for 47 years, and believed that no matter how careful people are of their health, diet and exercise, constipation will occur from time to time. Of next importance, then, is how to treat it when it comes. Dr. Caldwell always was in favor of getting as close to nature as possible, hence his remedy for constipation is a mild vegetable compound. It can not harm the most delicate system and is not habit forming.

The Doctor never did approve of drastic physics and purges. He did not believe they were good for human beings to put into their system. Use Syrup Pepsin for yourself and members of the family in constipation, biliousness, sour and crampy stomach, bad breath, no appetite, headaches, and to break up fevers and colds. Get a bottle today, at any drugstore and observe these three rules of health: Keep the head cool, the feet warm, the bowels open. For a free trial bottle, just write "Syrup Pepsin," Dept. BB. Monticello, Illinois.

After all, what is the most important thing in baking?

Is it measuring and mixing ingredients? Is it selecting *certain* ingredients? All Home Economists know that after all, the most important thing is the correct oven temperature.

For almost anyone using care can measure and mix good ingredients accurately and follow a tested recipe. But in the baking—that's where all your best efforts meet the real test.

Today, leading Home Economists are turning to a device that keeps the oven at any temperature. It is called the Oven Heat Control and is a part of the new Gas Range.

See these new Gas Ranges at your dealer's. Or phone or call at our office.

Thompson, all of Roseville; Mr. and Mrs. Cloyd, Misses Ruth and Allie Snyder, of Sacramento and Mr. and Mrs. Charles Snyder of Forest Hill.

LEGAL NOTICE

SUMMONS
No. 5713

In the Superior Court of the State of California, in and for the County of Nevada.

ECHO M. GOODWIN and LUL GOODWIN, his wife, Plaintiffs,
—vs—
JOHN W. O'NEILL; A. A. CHARONNAT; I. C. LINDLEY, S. T. ALLEN; NEVADA IRRIGATION DISTRICT, a corporation, AND ALSO ALL OTHER PERSONS UNKNOWN CLAIMING ANY RIGHT, TITLE, ESTATE, LIEN OR INTEREST IN THE REAL PROPERTY DESCRIBED IN THE COMPLAINT ADVERSE TO PLAINTIFFS' OWNERSHIP OR ANY CLOUD UPON PLAINTIFFS' TITLE THERETO, Defendants.

Action brought in the Superior Court of the State of California, in and for the County of Nevada.

W. E. WRIGHT, Attorney for Plaintiff, Nevada City, California.

THE PEOPLE OF THE STATE OF CALIFORNIA SEND GREETINGS TO: JOHN W. O'NEILL, A. A. CHARONNAT, I. C. LINDLEY, S. T. ALLEN, NEVADA IRRIGATION DISTRICT, a corporation; and also all other persons unknown claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to Plaintiffs' ownership, or any cloud upon Plaintiffs' title thereto, Defedants.

You and each of you are hereby directed to appear and answer the complaint in an action entitled as above, brought against you in the Superior Court of the State of California, in and for the County of Nevada, within Ten (10) days after the service upon you of this summons, if served within this County, or within thirty (30) days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required the said Plaintiffs will take judgment against you for any money or damage demanded in the Complaint as arising upon contract or they will apply to the Court for any other relief demanded in the Complaint.

The said action is brought by the above named Plaintiffs against the above named defendants, and each of them, to quiet Plaintiffs' title to the land and real property described in the Complaint on file in said action and hereinafter particularly described, and to determine the adverse claims of the above named defendants, and each of them, and of all unknown persons to, and clouds upon the title to the said real property and the whole thereof pursuant to the provisions of Sections 749, 750 and 751 of the Code of Civil Procedure of California, and that said real property is situate, lying and being in the County of Nevada, State of California, and is particularly described as follows, to-wit:

All those certain lots, pieces or parcels of land situate, lying and being in the County of Nevada, State of California, and bounded and particularly described as follows, to-wit:

The North West quarter (NW ¼, the West half (W½) of the West half (W½) of North East quarter (NE¼); the North Half (N½) of South East quarter (SE ¼) and the South West Quarter (SW¼) of South East quarter (SE¼) of Section Eleven (11), Township sixteen (16) North, Range 9 East, Mt. D. B. & M.

The object of said action is to obtain the judgment of the Court against said defendants and each one of them, known and unknown as follows:

That all adverse claims to, and all clouds upon the title of plaintiffs to said real property or any and every part thereof be determined by the judgment and decree of said court, and that it be decreed that plaintiffs are the sole owners in fee of said real property and the whole of said real property herein described, being the same real property described in the Complaint of Plaintiffs on file herein and that plaintiffs are in possession of the property and entitled to the possession of the said real property, and the whole thereof, and that the defendants have not, and that no one of said defendants, including the unknown persons made defendants herein, have any right, title, estate, lien or interest of any kind whatsoever, in or to or on the said real property or any part thereof, and that said defendants, and each and every one of them, known and unknown be forever debarred, enjoined and restrained from making or asserting any claim whatsoever in or to said real property, or any part thereof, adverse to plaintiffs, and that the title of said plaintiffs in and to said real property and the whole thereof be forever quieted and adjudged good and valid, and for such other and further additional order, judgment, decree and general relief as is meet and proper in the premises, and for costs of suit.

Given under my hand and the seal of the Superior Court of the State of California, in and for the County of Nevada, this 14th day of January, A. D., 1929.

GEORGE COUGHLAN,
[SEAL] Clerk of said Superior Court.

First Publication—January 28, 1929.

Dates of Publication—Jan. 28: February 4, 11, 18, 25; March 4, 11, 18, 25; April 1, 8, 1929.

INCREASED ACTIVITY IN SISKIYOU COUNTY

That there is an increasing activity in mining throughout the county that may well develop into a minor boom before the summer is over, is indicated by information gathered by Fred Grotefend of the Klamath River Holding company.

According to this information there are somewhere in the neighborhood of 20 properties big and little that have started operating during the past few months or are making preparations to start this spring.

Among the larger and more spectacular of these properties are the Black Bear mine which is now operating with a crew of 20 men and are laying plans for the erection of a 300-ton Ball mill. This mine has produced more than $3,000,000 worth of gold and is still a good producer.

Two other properties of exceptional note are the Buzzard Hill mine and the Independence; both of which have been shut down pending the settlement of litigation. This has been done and the owners will start work very shortly at both mines.

It is reported that the Buzzard Hill mine, where a Vandercock Cyanide plant will be installed has ore in sight and probable ore to the extent of $250,000.

The ore runs in a wide vein of low grade with a high grade streak that has gone as high as nearly $30 to the pound according to good authority. As much as $28,000 have been shot down in one day with very crude methods employed. The Independence is equipped with a 10-stamp mill.

Other properties which are showing signs of activity are:

The King Solomon mine is now building a road to connect with the Black Bear road, and the owners are now at work enlarging their mine capacity.

The Hathaway mine has recently installed a roller mill of 100-ton capacity.

The McKeen mine has recently been taken over by new owners and a new 100-ton Ball Mill with concentrators installed.

The Schroeder mine, which was recently taken over by a new company,, which contemplates increasing the capacity of their 10-stamp mill.

The New York mine, equipped with a 10-stamp mill, recently put on a crew of men to resume operations.

Mount Vernon mine now has a crew of men at work operating a five stamp mill.

The Golden Eagle mine changed hands a few days ago and a crew of men were put to work renovating the plant. They expect to begin producing by the first of March.

Morrison and Carlock mine, equipped fith a 10-stamp mill, will resume work immediately after having been shut down since early in the winter.

Blue Jay and Cements mine, a placer property, has recently been takn over by Seattle capitalists, who are now operating the mine.

The Hickon Drift mine has been operating since last summer with a full crew of men.

A $20,000 Gold Drag placer is in operation on the Klamath river near Gottville and is producing considerable gold.

The Lilly Hydraulic mine has a small crew at work getting this property in shape to commence operations.

Phone Number One We Deliver

FRENCH CORRAL ITEMS

FRENCH CORRAL, Mar. 2, (Special to The Nugget)—Well Spring has made her debut. She was ready five or six weeks ago, but had to postpone on account of Jack Frost's chilling presence. "Pussy Willows" have advanced to the catkin stage, and the "Johnnie Jumpups" are here, but for some reason the buttercups are not to be found, and they always come before the Johnnies". This dlightful weather, woos us out of doors and the work we find awaiting us is rally a pleasure.

Miss Frances Bowman and Miss Minta Bradbury of San Francisco, who are touring the state, made a trip from Downieville to French Corral Saturday. They were strangers here, but were greatly enthused with this part of the country and epxressed the wish of owning a home here, and intend to return in about six weeks. They reorted a fall of snow in Downieville that morning. We had a light shower of rain between four and five o'clock. The early morning shower gave a feeling of disappointment to those who were interested in getting up the dance for Saturday night. But the morning dawned clear and bright and a beautiful day followed and the moonlight night was all that could be asked for. However our dance was not the financial success we hoped for, but our Water Association will get a small bnefit anyway. We were handicapped in different ways, but we hope not to meet with such handicaps when our next dance takes place some time in the future. All dancers seemed to be having a good time, however, and when it comes to the "eats"—Well, French Corral is never found wanting in that line .The patrons come from outsanding districts and special mention should be made of some who could not come but sent a representative Frank Labadie of the Camptonville hotel wh oin his boyhood days was a resident for several years and attended school here and in Birchville sent Mr. Arthur Deal and also the rice of his own ticket. Ted Schwartz Pleasant Valley also sent a generour check. Ted is always alive to any good work. If many ex-residents would remember us in this way we could soon overcome our difficulties. We hope to give our next Water Association dance at San Juan Mar. 16th. More later .

GOLD HOLLOW NAME CHOSEN MILLS COLLEGE

"Gold Hollow" is the name chosen for the summer camp of Mills College at Lake Vera states an artistic folder issued by the college a copy of which has been received at this office. A skillfully drawn map shows the way to reach the lake from Sacramento and points out historic points enroute. The physical education department of the college is sponsoring the camp and it is sxpected that there will be a capacity attendance throughout the season. With the Camp-Fire Girls coming in numbers again from the bay region Lake Vera will be a popular spot this season.

The William Graham's home at Selby Flat burned to the ground early last week, but a few effects being saved from the flames. It is thought that the roof caught fire from sparks from the chimney.

Mrs. O. K. Mouron of Sonora addressed the members of the Womans Civic Improvement Club at the Elks building last week on the subject of law enforcement.

P. G. Scadden, district deputy of the Elks, went to Stockton Tuesday and paid an official visit to the Elks Lodge ther. He returned home Wednesday.

MRS. HOWARD DOUGLAS TO TALK OVER RADIO

Radio fans of this section will be interested to know that they can tune in on Station KGO tomorrow, Tuesday night, and listen to Mrs. Howard Douglas who is widely known as the original announcer in South Africa. Mrs. Douglas goes on the air at 10:15 and will give an interesting talk on the early development of the radio in South Africa. Mrs. Douglas since coming to Nevada City has won many friends by her charming ways and they will be interested in hearing her voice over the radio.

at the movies

MONDAY—"Wings" with sound effects. The great epic of the air serive. The best picture of the year One show only. Starts at 7:30. "Going Places" is the Comdy. News

TUESDAY and WEDNESDAY—Another big show, "The Man Who Laughs" with Mary Philbin. A film version of Victor Hugo's masterpiece.

FRIDAY—"The Crimson Canyon" "Scarlet Arrow". Comedy.

SATURDAY—"Crooks Can't Win" "The Fighting Spirit". A Collegian picture.

SUNDAY and MONDAY—Emil Jannings in "The Patriot". One of the best pictures of the year. "Only Me" is the Comedy. News.

WINGS WILL HAVE THE SOUND EFFECTS TONITE

It is with pleasure that we announce that the wonderful pictures Wings, being shown at the Broadway Theatre tonight for the last time will have the sound effects synchronized with the film the same as played in the theatres of the large cities.

Manager William Tamblyn has arranged a splendid feast of entertainment for theater fans this week Following Wings, comes Mary Philbin in "The Man Who Laughs", a film dramatization of Victor Hugo's masterpiece and acclaimed a marvelous picture .On next Sunday and Monday will be shown Emil Jannings' starring vehicle, "The Patriot" which has created a furore. It is said to be his best and those who saw him in Quo Vadis will admire his work in this, his latest showing.

Such pictures as these warrant crowded houses at each performance and Manager Tamblyn is to be congratulated on his willingness to bring such high class pictures to Nevada City.

MARIPOSA COUNTY

The Onyx Gold mine in Cathay's Valley has been leased by S. T. O'Brien and F. H. Vahren Camp of San Francisco from S. B. Givens and J. M. Rowland. Development work shows a good payshoot with promise of a good property.

They have also leased the Bobby mine. Work is to start at an early date.

The Toletto mine near Hornitor has been taken over by A. Giles W. Adams and L. Williams. There is a 75 foot shaft and the vein is stoped from water level to the surface. Development work will start in the near future.

The Doss mine is being mined and ore shipped to Selbys. It is reported to have good values. W. J. Kelley and Company of Seattle are operating the mine.

It is stated that good ore has been found in the Duncan mine. A mill is to be built soon.

Development work is going on at Number Nine mine. They plan to install electricity.

Jesse Ennor, Penn Valley sotck man, was in Nevada City Saturday.

A. A. Codd president of the Western Merger mnie, whose home is in Nevada, was at the mine Monday.
